### AAA FINDS SEPTEMBER GAS PRICE CONTINUING SLOW DECLINE FROM LAST YEAR

**VIRGINIA BEACH, VA** (September 11, 2013) – The average price for regular unleaded gasoline in Virginia is \$3.33 per gallon. Today's price is five cents less expensive than one week ago and 36 cents behind the same day last year. Hampton Roads is enjoying the same lower prices from last year with the current price for regular unleaded gas at \$3.34, five cents lower than a week ago, 13 cents lower than a month ago, and 34 cents lower than a year ago.

The gas prices in Virginia are still showing a slow but steady decline despite the potential looming conflict in Syria. In addition, retail gas prices are likely to continue moving lower through the fall due to plentiful supplies, continued weaker demand, and the mid-September switch to cheaper winter-blend gasoline. This is welcoming news to motorists in the area this Fall.
